Illness Policy

We know how it is important for you to have reliable childcare and this is a high priority for us. However, there will be times when it is **not** possible for us to care for your child without compromising the health or well-being of others. If your child is unwell then they will be better cared for in their own home.

We are happy to care for children with minor coughs and colds but **cannot** care for children who are very unwell, infectious or running a high temperature as we have to consider the well-being of all the children in our care. If we contract a contagious condition this could result in you being inconvenienced at a later date.

If your child has suffered with diarrhea or sickness within the last **forty-eight hours** please keep them at home.

If your child becomes ill whilst in our care, we will make them as comfortable as possible, while trying our best to prevent cross-infection to the other children. We will contact you immediately and continue to care for your child until you arrive to take your child home.

We are happy to administer medication with your written permission (please see the Medicines Policy).

It would be appreciated if you would phone and advise us if you are keeping your child at home and when they are expected to return.

If you have any concerns, we will be happy to meet and discuss them with you.
